Ring Size Guide

Measuring Your Finger To Find Your Size

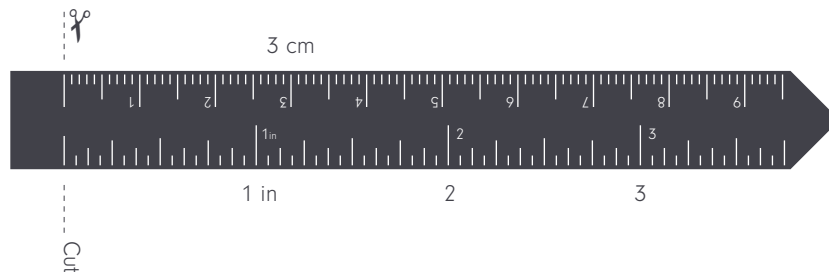

Finger size changes depending on the time of the day and the weather. For best results measure your finger size at the end of the day. Do not measure your finger when it is hot or cold. Make sure that the chosen size leaves enough room for the ring to pass easily along the entire length of the finger.

1. Have a tape measure handy or download the tape measure above.
 2. Before printing the tape measure, make sure the "Scale to fit" option is unchecked in the print dialogue box or the size is set to 100%.
 3. Wrap the tape measure around your finger, note the measurement and consult the ring size table below.
 4. Please note for your order that India Mahon uses UK sizing, that you can find in the ring size table.
 5. If you are hesitating between two sizes, choose the larger one.
-

Please use a ruler to check that the scale corresponds:
